How to Use the Content Overview

The Content Overview is designed as a tool to assist parents in planning Wisdom Booklet study. It includes a brief synopsis of the academic content of *Wisdom Booklets 1–28* along with an index of topics for *Wisdom Booklets 1–54*.

Each Wisdom Booklet overview is broken down into six areas of academic study: character development, language and communications, history and geography, mathematics, law and government, and health and medicine. Listed under each of these areas are the main topics covered in that particular Wisdom Booklet. Suggested materials for completing Parent Guide Planner projects or for additional supplementation of the Wisdom Booklet are also listed. It is not necessary to use these specific resources. They are listed here for your convenience and benefit.

If a suggested resource does not seem to “match” the academic topics listed in the Content Overview, it is because a Parent Guide Planner project springboards from the listed academic subject to another subject. The recommended resource is for use with that project. Please refer to the Parent Guide Planner to determine how the resource relates to the Wisdom Booklet content.

In the sidebar columns beside each Wisdom Booklet overview, the Scripture passage, character quality, theme song, command of Christ, and Further Study Focus for that Wisdom Booklet are listed.

The Index of Wisdom Booklet topics uses the new page numbers for the revised *Wisdom Booklets 1–28* (which are separately paginated) and the original page numbers for *Wisdom Booklets 29–54*. For more information regarding the page numbers, see the index, which begins on page 60.
